International Journal of Clinical Monitoring and Computing **11**: 267–269, 1994.

Contents volume 11, 1994

Volume 11, No. 1

Editorial
R.M. Gardner 1

Meeting Report 5

In-house medical personnel scheduler: A computerized on-call scheduling program
D.T. Seitman 7

Decision making in high dependency environments – can we learn from modern industrial management models?
W. Friesdorf, S. Konichezky, F. Groß-Alltag, D. Geva, M. Nathe and S. Schraag 11

Automatic selection of tidal volume, respiratory frequency and minute ventilation in intubated ICU patients as startup procedure for closed-loop controlled ventilation
T.P. Laubscher, A. Frutiger, S. Fanconi, H. Jutzi and J.X. Brunner 19

Assesssment of chemical lumbar sympathectomy in critical limb ischaemia using thermal imaging
D. Greenstein, T.F. Brown and R.C. Kester 31

PC-based differential model fitting as a support for clinical research
A. De Gaetano, M. Castagneto, G. Mingrone, W.P. Coleman, G. Sganga, P.A. Tataranni, G. Gangeri and A.V. Greco 35

The effect of atropine on the T-wave amplitude of ECG during isoflurane anaesthesia
P.A. Annila, A.M. Yli-Hankala and L. Lindgren 43

A new experimental approach for monitoring postoperative bypass patency after coronary artery bypass grafting
M. Laß, K. Paulat, R. Brucher, C. Hübner, P. Schmid, U. Uetz and A. Hannekum 49

Evaluation of a portable prototype to analyze heart rate variability
M. Irone, L.G. Lacquaniti, B. Mazzini and M. Dan 57

Computer assisted detection of REM and non-REM sleep for analysis of nocturnal hypoxaemia in patients with ventilatory impairment
T. Salmi and P.E. Brander 63

Announcements 71, 77

Instructions to authors 72

Volume 11, No. 2

A knowledge-based alarm system for monitoring cardiac operated patients – assessment of clinical performance
E.M.J. Koski, T. Sukuvaara, A. Mäkivirta & A. Kari 79

The AVL-mode: a safe closed loop algorithm for ventilation during total intravenous anesthesia
N. Weiler, W. Heinrichs & W. Keßler 85

Lessons learned while building an integrated ICU workstation
W. Friesdorf, F. Groß-Alltag, S. Konichezky, B. Schwilk, A. Fattroth & P. Fett 91

Conjunctival oxygen tension is influenced by plasma and blood volume, and flow through the external carotid artery
P. Sjöström, L. Wiklund & B. Odlind 101

Information transfer in high dependency environments: an ergonomic analysis
W. Friesdorf, S. Konichezky, F. Groß-Alltag, W. Koller, B. Pollwein, G. Marraro, A. Kari, M.J. Toro, M. Demeester, M. Nathe, S. Samways, I. Polishuk, I. Müller, A. Bonnaire, S. Schraag & B. Claßen 107

Designing an anaesthesia data management system for a medium size country hospital
F. Wagner & J. Hansert 119

Data quality of bedside monitoring in an intensive care unit
W. Friesdorf, S. Konichezky, F. Groß-Alltag, A. Fattroth & B. Schwilk 125

Selected abstracts from the Fourth Annual Meeting of the European Society for Computing and Technology in Anaesthesia and Intensive Care 131

Announcement 137

Instructions to authors 138

Volume 11, No. 3

Editorial
M.M. Shabot 143

Postoperative information transfer: a study comparing two university hospitals
B. Schwilk, N. Gravenstein, S. Blessing & W. Friesdorf 145

Presentation and evaluation of a new optical sensor for respiratory rate monitoring
M. Vegfors, L.-G. Lindberg, H. Pettersson & P.Å. Öberg 151

A clinical decision support system prototype for cardiovascular intensive care
F. Lau 157

Is proximal airway pressure a good reflection of peripheral airspace pressure in infants and children models under HFJV?
A.M. Cros, C. Kays, P. Ravussin & H. Guenard 171

Differences in the topographical distribution of EEG activity during surgical anaesthesia and on emergence from volatile anesthetics
G.B. Schere, V.G. Mihaljevic, M.A.W. Heinrichs & B. Eberle 179

Assessment of depth of general anesthesia. Observations on processed EEG and spectral edge frequency
G.M. Gurman 185

Abstracts of the Fifteenth Annual Conference on Computers in Anesthesia, Monterey, California, U.S.A., October 19–23, 1994 191

Abstracts of the 1994 Spring Meeting of the Society for Computing and Technology in Anaesthesia, Britain, May 4–6, 1994 205

Volume 11, No. 4

The practical management of artifact in computerised physiological data
S. Cunningham, A.G. Symon & N. McIntosh 211

The effect of a heat and moisture exchange filter on sidestream spirometry in critically ill patients
J.J. Puolakka & I.T. Jousela 217

Computer supported multimodal bed-side monitoring for neuro intensive care
M. Czosnyka, H. Whitehouse, P. Smielewski, P. Kirkpatrick, E.P. Guazzo & J.D. Pickard 223

Data quality in computerized patient records. Analysis of a haematology biopsy report database
J.H. Hohnloser, M.R.G. Fischer, A. König & B. Emmerich 233

Intelligent systems in patient monitoring and therapy management. A survey of research projects
S. Uckun 241

Announcement 255

Instructions to authors 259
